To find Chaparral's sensational multi-purpose 284 Sunesta atop the list of Asia Pacific's award winning boats comes as no surprise. Building on Chaparral's 45 year history, there simply isn't a sportboat that compares. Up front, Chaparral's innovative Wide Tech hull design creates a wide open feel unprecedented at this length. An engineering marvel, key innovations include a bow seat that extends to a double-wide dinette at the flick of a switch and a huge cockpit wet bar that can be equipped with an optional onboard barbecue. Aft, an enormous integrated platform serves as the ideal launching pad for watersports while a power assist aft facing lounge easily converts to a sun lounge. Chaparral's award-winning Extended V-Plane performance delivers arm pulling low-end, fuel efficient midrange and responsive top-end. Chaparral's Quad Radial lamination keeps the weight down and the strength up and features Kevlar reinforcement for the ultimate in ride comfort.
